

BUTTERFLY ORIGAMI TUTORIAL

Materials needed

- Coloured A4 paper
- Scissors
- Marker pen

Step:

1. First, fold your paper in half to create a mountain fold, open out and fold in half again this time the opposite way.

2. Open out and fold along both diagonals making two more mountain folds.

3. Fold the center folds in and collapse in to make a triangle.

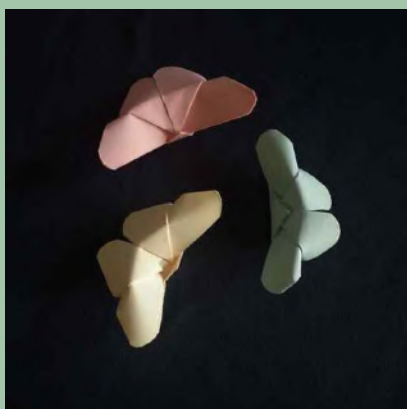

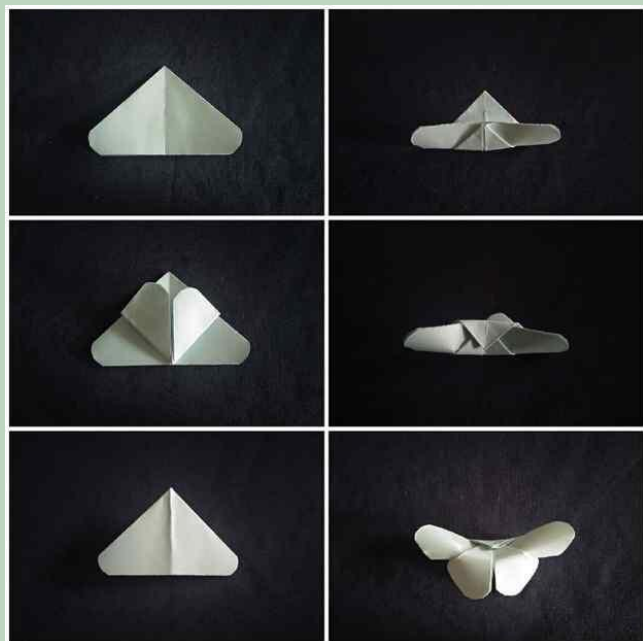

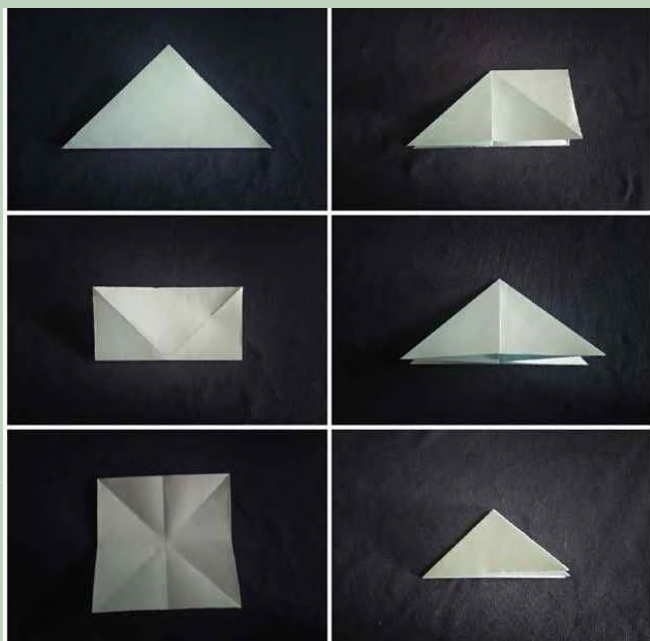

4. cut the corner of the triangle to make a shape.

5. Fold the top layer of both corners up to meet in the center.

6. Flip it over and lift the bottom corner up. You want to fold it past the top edges so the tip of the triangle extends over the top. Flatten the center but not the edges of the crease.

7. Fold the tip of the triangle over and crease. If you're using anything thicker than origami paper you may need to use a little glue to hold this flap down,

8. To finish fold the butterfly in half to help shape it.

Final Outcome:

All you have to do now is find a place to display your origami butterfly and enjoy.
